## ABOUT THE LECTURE

*An autobiographic thank you to all the experiences, people, places, and things that brought me to you.*

*I'll be using examples of my work in various mediums and creative themes that held my interest as an art student, graphic designer, painter, and calligrapher, that still today pull my letterform practice towards*

*deeper meaning as a mode of self transformation and healing.*

*I strongly believe that the challenges we all face as humans can be used for good, and to propel us all towards better health and into loving, nurturing relationships with ourselves and each other.*

**Questions?** E-mail Kristi at [IE-PVPres@societyforcalligraphy.org](mailto:IE-PVPres@societyforcalligraphy.org).
